CDRI AWARDS - 2016 for Excellence in Drug Research

Announcement

The prestigious CDRI Awards 2016 for Excellence in Drug Research in Life Sciences category has been awarded to Prof. Patrick D'Silva, Associate Professor, Department of Biochemistry, IISc, Bengaluru for his work on *“Development of a cytoprotective anti-oxidant as well as ROS scavenging Isoselenazoles towards treatment of oxidative stress disorders. It also recognizes his work on protein misfolding, protein transport mechanisms, and Fe-S cluster biogenesis in genetic disorders”*.

In the Chemical Sciences category, the award has gone to Dr. Anthony Addlagatta, Principal Scientist, CSIR-IICT, Hyderabad for his work on *“Medicinal chemistry and unravelling the structure function relationship of important proteins associated with the ribosomes at the exit tunnel”*

Our heartiest congratulations to both the awardees!

The felicitation ceremony will be held on 26th September 2016
